- Data station to overlap lap data against comparable cars
- Lead-follow acclimation sessions for those with limited or no Sebring experience
- Corner critique notes

FAQs

CAN I INVITE NON-MEMBERS TO DRIVE? Yes, members may invite advanced non-member drivers who will be added to a waiting list and confirmed beginning on December 15 based on availability (i.e., driving slots must first be allocated to members.) Driving guests who have not previously driven at MMC in our Open Passing run group will require Dennis Macchio's prior approval.

HOW DO I INVITE NON-DRIVING GUESTS SUCH AS FAMILY OR SUPPORT CREW? Normal MMC club rules and fees will apply as if this were a typical club driving day at MMC. As such, non-driving guest and crew fees include breakfast and lunch (and for Sebring, dinner will be included on Day 1.)

I'M AN ADVANCED DRIVER, BUT I'VE NEVER BEEN TO SEBRING. DO I NEED PRIVATE INSTRUCTION? You do not require private instruction. We suggest you utilize the group instruction that is included with registration. This instruction will focus on acclimation to a new racetrack, not driving or competition skills.

CAN I SCHEDULE PRIVATE INSTRUCTION? Yes, you can book private instruction through Concierge. MMC will pass on the instructor's actual travel and accommodation costs. If you book an instructor for one day only, and another member books the same instructor the other day, we will split travel and accommodation costs between the members. However, if you book an instructor for one day only, we cannot guarantee that the instructor will be booked the other day, in which case you would be responsible for all travel and accommodation costs for that instructor. Like any MMC club day, Guest Instructors must be pre-approved, and cork fees will apply (and includes breakfast, lunch, and dinner on Day 1.)

CAN I SCHEDULE SEMI-PRIVATE INSTRUCTION? We will strive to accommodate members who wish to share instructors for this outside event in order to spread instructor travel and accommodation costs. Semi-private instruction will be limited to 2 students per instructor. Semi-private instruction requires additional work for both the instructors and for Concierge to coordinate, so we will add a 25% up-charge to each student's portion of the instructor fee. (Instructors who handle 2 students will be paid a 25% premium.)

CAN I REGISTER FOR ONE DAY ONLY? No, each two-day event is considered a single event, regardless of whether you attend both days.

ARE MMC RACECARS AVAILABLE FOR RENT? We will offer several racecars from our fleet, and outside shop support is required (pending confirmation) for transport and on-site support which will

be billed directly. Fuel is not included for Sebring MMC racecar fleet rentals. Tires come “as-is”, and you may arrange for stickers via the supporting shop.

If you're renting a MMC racecar or need help connecting with a shop to support your car, as much notice as possible is required. There is no guarantee of shop availability.

MMC Racecars Available to Rent:

Two Porsche GT4 Racecars (support from SpeedSport Tuning)
Four Porsche Cayman PDK racecars (support from SpeedSport Tuning)

Members interested in renting an MMC Car at Sebring will be contacted with pricing information and details on how to arrange on-track support on event days.

HOW CAN I TRANSPORT AND SUPPORT MY RACECAR? For most racecars stored at MMC and already supported by our race center, we will be able to prepare your car for the event. However, MMC is not able to provide transport or on-track support. Based on which racecar(s) you intend to utilize, we can recommend one of several partner race shops.

CAN I USE FLEET POINTS TO BOOK THESE EVENTS, RENTAL CARS, AND/OR INSTRUCTORS? Yes. Please check with concierge for details.

LOAD-IN AND LOAD-OUT DETAILS? The day prior to each event, you can pre-stage at Sebring (i.e., queue up for entry) beginning at 3pm, and load-in beginning around 5:30pm. Load-out (i.e., vacating Sebring) must be completed by 7pm on the 2nd day of each event.

HOW SHOULD I GET TO SEBRING, AND WHERE SHOULD I STAY? You should fly in the afternoon/evening before to either Tampa (TPA) or Orlando (MCO), rent a car, and drive to Sebring (roughly 90-120 minutes from either airport), or fly privately to Sebring Airport (“SEF”) which is adjacent to the racetrack. Our team can recommend one of several local hotels. As members register for these events, we will set up a private group chat on the MMC CLUB APP so members can exchange travel information and consider a shared charter flight direct to SEF.

I WANT TO PARTICIPATE IN MULTIPLE SEBRING EVENTS. CAN I LEAVE MY RACECAR THERE? Yes, we are working on several storage options. Members should assume a 5-month commitment at a monthly cost similar to MMC.
